Printer Toner Vs Printer Drum

The toner cartridge is the container that holds the toner powder. The drum unit is an electrically charged cylinder that fuses that toner powder onto paper to create text and images. Both of these components are essential for producing a print.

1. Second Bias Transfer Roller
2. Fuser Assembly
3. Drum Cartridge Release Lever
4. Toner Cartridges
5. Main Power Switch
6. Transfer Belt Cleaner
7. Waste Container
8. Drum Cartridges
9. Drum Cartridge Cover
